

easi-lift changing bench

No floor fixing

Most height-adjustable changing tables require fitting to both the wall and floor. The Easi-Lift Changing Bench has been designed to require wall fixing only. This is particularly beneficial where the type of floor, surface pipe work or cabling prevent floor installation.

Reduces back injury

The Easi-Lift Changing Bench has a travel range of 500mm to meet varying needs and the bench can easily be set to a safe and suitable working height to help prevent the risk of back injury to the carer.

Space saving design

Easi-Lift Changing Bench is a compact, electrically operated wall-mounted changing bench designed to fit in a dry room where space is at a minimum.

easi-lift changing bench

key features

- Electrically operated
- No floor fixing required
- Ideal for a dry room environment
- Available in 6 sizes
- Length of table available in 100mm increments from 1200mm – 1700mm
- Weight capacity of 150kg
- Travel range of 500mm
- Folds away to save on space
- Protrudes 305mm from the wall when stored
- Easy to clean padded surfaces
